

AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

Do not endanger the life of your child by accepting a cheap substitute which some druggist may offer you (because he makes a few more pennies on it), the ingredients of which even he does not know.

"The Kind You Have Always Bought" BEARS THE FAC-SIMILE SIGNATURE OF

Chas. H. Fletcher

Insist on Having The Kind That Never Failed You.

VERDICT RENDERED

Report of Investigation of the Killing of Striking Miners.

JURY DISAGREE ON SOME POINTS

All Agree That the Victims Met Death at the Hands of Sheriff Martin and His Deputies—Four Think It Wanton Murder and Two Do Not Concur—Riot at Girardville.

HAZELTON, Pa., Sept. 28.—The coroner's jury which investigated the death of the striking miners at Lattimer met in Deputy Coroner Cowan's office last evening and, after an hour's deliberation, rendered the following verdict:

That from the circumstances of the case and the evidence offered, the said Clement Placock and others came to their deaths by gunshot wounds on Sept. 10, 1897, at the hands of Sheriff Martin and his deputies, and in this we the jury do all agree; and we, Phil J. Boyle, Thomas T. Thomas, Barton Freas and Peter McKiernan of this jury, do further say that the said Clement Placock, with others, was marching peaceably and unarmed on the public highway; that they were intercepted by said Sheriff Martin and his deputies and mercilessly shot to death and we do further find that the killing was unnecessary and could have been avoided without serious injury to either person or property and we find finally that the killing was wanton and unjust, but in this we, George Maue and F. J. McNeal of this jury do not concur, and we, the jury, do further say that there was such strong suspicion of unlawful violence at the hands of person or persons unknown to this jury as to make this inquest necessary.

RIOTING MINERS.

Nine Men Fatally Injured and Many Seriously Wounded.

GIRARDVILLE, Pa., Sept. 28.—At least nine men received fatal injuries and possibly two score of others were more or less seriously wounded in a bloody riot here as an outcome of a quarrel over the Hazelton troubles. Thirty-six men are known to have been wounded and about 50 more are being treated by their friends who fear that they will be sent to jail. Twelve of the ring leaders were brought before Justice H. B. Johnson. All were charged with assault with intent to kill, housebreaking and rioting and held in heavy bail for court. Dr. Charles Schlemmer attended to 22 of the wounded, nine of whom he says will die. Drs. William Monaghan and James Douglas attended to 14 others, and how many the other physicians cared for is not known. Three other men have been reported dead, but this cannot be verified yet on account of the uncommunicative nature of the participants, who are all Poles, and have been at war with one another for some time.

CONVENTION OF MAYORS.

About Three Hundred Delegates at Columbus to Discuss Municipal Affairs.

COLUMBUS, O., Sept. 28.—At the Columbus Auditorium this morning opened the first annual convention of the mayors and councilmen of the United States and Canada with about 300 delegates present. The convention will cover four days with morning, afternoon and night sessions. Papers and addresses are promised on a wide range of municipal topics, such as water, gas, electric light and streetcar service, the equipment of police and fire departments, pavements, sewerage, the disposition of the public health.

Such national celebrities as Colonel George E. Waring of New York, Governor Pingree of Michigan, Mayor Warlick of Philadelphia, Mayor Harrison of Boston and Mayor Carter of Chicago are on the program for speeches, and Governor Bushnell of Ohio delivered the formal address of welcome.

The topic most likely to provoke spirited discussion and perhaps to result in some decisive action by the convention, is that of the municipal ownership of gas, water and electric light plants and the control of municipal franchises in general.

Statement of Consul McGarr.

CHATTANOOGA, Sept. 28.—Owen McGarr, American consul at Cienfuegos, Cuba, who is visiting here, denies emphatically the dispatch that he refused to assist the Brunels when they applied to him for help. He declares that he gave the Brunels all the assistance possible and that as far as he knows they never at any time suffered for the necessities of life. He says the dispatch is highly colored.

Twenty-Seven Cars Destroyed.

HUNTINGDON, Pa., Sept. 28.—A rear-end collision of eastbound freight trains on the Pennsylvania railroad, five miles west of here, last evening, caused the destruction of 27 cars and a large quantity of general merchandise. The four tracks were torn up for a considerable distance, and traffic temporarily suspended.

Shortage in Accounts.

BELLEVILLE, Mo., Sept. 28.—Ex-Secretary Lane of the Savings, Building and Loan association of this city was arrested yesterday and put under \$1,500 bonds on a charge of embezzlement.

Dwight Harrison, deputy inspector for building and loans, was here and found that Lane was short \$10,715 in his accounts. Lane's arrest followed.

Ex-Cabinet Officer Dead.

TRENTON, Sept. 28.—Ex-Secretary of the Navy George M. Robeson died yesterday at his home in this city. Mr. Robeson was 69 years old and had been in failing health for several months. In June, 1890, he was made secretary of the navy. He served in this office until the end of President Grant's second term, March, 1877.

Iron and Nail Works Resume.

HELD FOR A RANSOM

Two Americans Believed to Be in the Hands of the Swiss Banditti.

FREQUENT DEMANDS FOR CASH

Missing Men Had Sufficient Funds to Pay Their Expenses When a Cablegram Came For \$1,000—Minister at Bern and Consul at Horgen Asked to Take a Searching Investigation.

TOLEDO, O., Sept. 28.—Harry Tollerton, aged 30 years, son of Attorney E. W. Tollerton, and Professor Daniel J. Holmes of Meadville (Pa.) college, have been traveling in southern Europe since June, but no one knows where they are and circumstances indicate that both are held by Swiss banditti, who are demanding a ransom for their release. They were last heard from on Sept. 8 at Martigny, Switzerland. A few days previous to that time they had received sufficient funds through Geneva to provide them with money for the rest of their trip to Berlin, where both were to enter the university on the 22nd of this month. Mr. Tollerton received a cablegram from Professor Holmes dated Lucerne requesting an immediate remittance of \$1,000 by cable to Cologne. He called to the United States consul at Lucerne for information as to the whereabouts of the young men and what, if any, trouble had befallen them, and also called to Holmes for particulars. The reply from the consul was indefinite and unsatisfactory and that purporting to be from Professor Holmes was even more so. A second demand for \$1,000 was made on the 23rd of this month, asking that the money be cabled to Lucerne. Last Saturday a third demand was made for an immediate cable of \$500 to Lucerne and the remaining \$500 by mail. Yesterday a message was received from Assistant Secretary Day at Washington to the effect that the minister at Bern and the consul at Horgen had been called to make a searching investigation.

SLAUGHTERED HIS FAMILY.

Prosperous German Kills His Wife, Six Children and Himself.

CARROLL, Ia., Sept. 28.—The slaughter of a mother and her six children occurred at the home of John Boecker, a farmer living eight miles northwest of here. Afterward the fiendish or demented husband and father, at whose hands they died, completed his bloody work by sending a bullet into his own head, inflicting a fatal wound. The family were prosperous Germans and as far as is known lived happily. No motive for the tragedy has been disclosed.

WEATHER.

Indiana—Fair; warmer in western portions.

Illinois—Fair; warmer in northern portions.

Ohio—Fair; cooler in southern portions.

BASEBALL NEWS.

Standing of the Clubs.

NATIONAL LEAGUE.

W. L. Peck.

St. Louis—Donahue and Douglas, 3 runs, 7 hits, 0 errors.

Pittsburgh—Hawley and Merritt, 5 runs, 13 hits, 1 error.

Chicago—Thornton and Kitzinger, 4 runs, 7 hits, 3 errors.

New York—Meekin and Warner, 8 runs, 7 hits, 4 errors.

Baltimore—Corbett, Nops, Hoffer, Amole and Robinson, 10 runs, 13 hits, 5 errors.

Boston—Nichols and Bergen, 10 runs, 2 hits, 4 errors.

Great Britain Will Be Represented.

WASHINGTON, Sept. 28.—Sir Julian Pauncefote, the British ambassador, is expected to return here from his London trip about Oct. 15. The staff of the British embassy, now at Manchester-by-the-Sea, will return next week and according to present plans, the entire British representation will be here when the seal conference is held.

TELEGRAPHIC BRIEVITIES.

The 3-days' cricket match between Philadelphia and the English players resulted in a victory for the former.

Statement of the condition of the treasury shows: Available cash balance, \$215,045,458; gold reserve, \$147,370,357.

Over 200 delegates attended the ninth annual convention of the United States Brew Masters' association at Detroit.

YELLOW FEVER.

Warm Days and Cool Nights Diminishes the Death Rate.

NEW ORLEANS, Sept. 28.—Warmer weather in the past two or three days has had the effect of increasing to some extent the number of cases of the prevailing type of yellow fever, but it has equally had the effect of sending down the death rate. There were 23 cases on Saturday, 17 yesterday and up to last night 21 cases. But there were only two deaths on Saturday, none on Sunday and two Monday. Present experience, therefore, proves that warm weather adds to the number of cases, but reduces the mortality, while colder weather diminishes the number of cases and enlarges the death rate. Physicians and the authorities generally agree that the situation is steadily improving. They believe that the chances are growing more remote every day of an epidemic and that there is little likelihood that the disease will assume before cold weather a much more virulent form than at present.

Professor Metz, who is at the head of the work of sanitation and who superintends the fumigation of all houses, said last night:

"Some little figuring that I have done discloses the fact that there have been up to the present time exactly 158 cases. Of these 19 have died, and I am able to state that 38 have actually been discharged as entirely recovered. Therefore, there remains only 101 cases, and while I should not like to undertake a statement of the number of those practically on the way to recovery, the condition among them with present conditions will be small. The death rate to-night is hardly above 12 per cent."

At Biloxi there were 17 new cases and one death; and two cases and one death at Scranton, while at Ocean Springs there were no new cases and no deaths.

Spirits Greatly Revived.

MOBILE, Sept. 28.—The report for Monday has greatly revived the spirits of the people here. They accept it as indicating that the energetic efforts to surround the disease and stamp it out are meeting with success. The new cases reported at noon for the previous day were 24. The only death reported was that of Florence Barlow, aged 23 years. A summary of the situation is as follows: Total cases at 20, 54; total deaths, 8; discharged, 26; remaining under treatment, 20.

Condition at Edwards.

EDWARDS, Miss., Sept. 28.—Eleven new cases of fever were reported yesterday, among them being J. H. Radford, mayor of this city. Many of the sick in town are so seriously ill as to cause great anxiety to their relatives and friends. The great alterations in the temperature—hot days and cool nights—work a great hardship on the sick.

Mail Matter Fumigated.

WASHINGTON, Sept. 28.—Postmaster General Gary authorizes the announcement that all mails leaving New Orleans in any direction are thoroughly fumigated under directions prepared by Surgeon General Wyman.

ALLEGED MURDERER RETURNED.

Lew Van Hise Brought Back to Ohio From Salem, Or.

HAMILTON, O., Sept. 28.—After a journey of 6,000 miles to Salem, Or., and return, Deputy Sheriff William Bruck and County Commissioner McLaughlin have reached here with their prisoner, Lew Van Hise, wanted here for the alleged murder of old man Cutler at West Chester six years ago. Van Hise, it is alleged, while under the influence of liquor, entered the country store at West Chester, and when asked by Cutler to remain quiet, struck him on the head with a revolver, from the effects of which he died. Through the diligence of Sheriff Bruck Van Hise was located at Salem, Or., and is now securely locked behind the bars of the Butler county jail.

Place of Residence Unknown.

BLUE MOUND, Ill., Sept. 28.—John Smalley, a stranger, fell from a train near here and was so badly stunned that he lay unconscious at the side of the road for a long time. The grass at the roadside took fire and ignited his clothing, burning him in a frightful manner. He was taken to Decatur for treatment. There is little hope of saving his life. He refuses to state his place of residence.

Sugar Beet Seed May Be Franked.

WASHINGTON, Sept. 28.—Secretary Wilson of the agriculture department has secured an order from the postoffice department permitting the agents of the department to attach to the department frank to packages of sugar beet seed to be sent from growers to the experiment stations throughout the country for analysis.

Brakeman Seeking Damages.

LIMA, O., Sept. 28.—Henry S. Cotton of this city has sued the Cincinnati, Hamilton and Dayton Railroad company for \$50,000. Up to last April he was employed as a brakeman on the road, and on the night of April 20, while he was climbing up the side of a car at Piqua, the handhold gave away and he fell under the train and both legs were cut off.

No Authority to Collect Money.

SPRINGFIELD, O., Sept. 28.—Complaint has been made to the police against C. W. Chevis, colored, about collecting money from merchants for the building of a hospital at Dayton for colored people. It is alleged that he had no authority to do it. The Dayton authorities have been notified to arrest him.

Forest Fires Raging.

VERSAILES, Ky., Sept. 28.—The timber along the Kentucky river southwest of here has been on fire since Saturday and is still burning over a great extent. Many houses are threatened and a small army of men are struggling to prevent the further spread of the flames. The loss and damage will be severe.

Identified by Victims.

SPRINGFIELD, O., Sept. 28.—Robert Irvin of Lawrenceville, now in jail at Urbana for stealing a buggy, has been positively identified as the man who committed the numerous holdups of the committed the numerous holdups of the streetcar motemen here lately. Motor-men Shanks and Thorpe both recognized him at the jail.

Kentucky Town Visited by Fire.

MILLERSBURG, Ky., Sept. 28.—Fire here destroyed the Masonic temple and town hall, also Miss Sallie Barnett's millinery store and Cale Carrington's residence. Other buildings narrowly escaped destruction. Loss, \$10,000; insurance, \$1,500.

Long Continued Drouth.

Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

SHORT CROP OF RYE.

American Agriculturist Receives Disappointing Returns This Year.

NEW YORK, Sept. 28.—A disappointing rye crop is indicated by the final returns to The American Agriculturist. Instead of 25,000,000 bushels, expected from earlier indications, the crop of the United States now figures out about 20,000,000 bushels, 1,000,000 more than last year and 2,000,000 less than in 1895 and 1894. The increase is mainly in Pennsylvania, the western crop being quite disappointing.

Latest European crop advices are confirmatory of serious shortages in rye, especially in Russia. Germany's rye crop seems to be somewhat larger than earlier reports indicated, but reduced estimates for France and other countries partly offset this.

Stocks of old rye at home and abroad are lower than for years and export demand for American rye continues very active.

Except during the fall of 1895 and 1896, rye has not been so low as at present since 1890.

CONTRACT LABOR LAW.

Chief and Secretary of Railway Telegraphers Accused of Importing Labor.

PEORIA, Ill., Sept. 28.—Walker V. Powell, grand chief of the Order of Railway Telegraphers, and H. Perham, grand secretary and treasurer, are held in \$1,000 bonds to the federal grand jury on a charge of violating the alien contract labor law, they waiving a place amination. They had promised a representative of the numerous Canadian lodges and discharged a man to make a vacancy for him. The discharged clerk then secured their arrest on imported contract labor charge. The officials deny that there was any contract and say that the Canadian lodges were in fairness entitled to representation.

Earthquake Shock.

OLYMPIA, Wash., Sept. 28.—A slight shock of earthquake has just been felt here. The vibrations were of sufficient force to awaken sound sleepers. No damage reported.

Sick Headache.
Neuralgia and Extreme Nervousness.

Dr. Miles' Nervine
Restores Health

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."

Mrs. CHAS. KNAPP,
W. German St., Little Falls, N. Y., Nov. 7, '35.
Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and nerves sent free to all applicants.

Teckmeyer's Store.
RESIDENCE: Ewing St. North of 7th.

DAILY REPUBLICAN

WEATHER INDICATIONS.

CHICAGO, September 28.—For Indiana
Monday night and Tuesday, fair and
slightly warmer weather.

Settled local conditions promise a
continuance of fair and moderate
weather for at least two days to come.
No general or local rain in sight.

Miss Lottie Rust has been assigned
to the Newkirk school two and a half
miles west of Cortland.

Daniel Helper Brown, who has been
sick for ten days, is able to be out
again but is still quite weak.

Wasson Bostic, of Burney, Decatur
county, and his two daughters are here
to see the street fair. Mr. Bostic is
visiting his school friend, C. A. Salt-
marsh, and his daughters are the guests
of Mr. Lucinda Gilman.

Examine your tongue; is it coated?
Have you bad breath, risk stomach
with sour belchings? If so, take Dr.
Bull's Pills as directed for dyspepsia
and you will be cured. 10 and 25
cents.

Conference Appointment.

The appointments of the Indiana M.
E. conference were announced last
night. Rev. J. M. Baxter, to the entire
satisfaction of his many friends, is re-
turned to Seymour. Seymour circuit,
Rev. J. L. Shroyer, Brownstown, Rev.
E. L. Sanders. Rev. T. J. Tunc goes
to New Washington and W. J. Stewart,
Birdseye. Rev. G. S. Henninger re-
mains at Crothersville and Rev. J. P.
Maupin takes charge at Freetown.

Wright's Celery Tea cures constipa-
tion, acts as a laxative, and is sold at drug stores.

THE STREET FAIR.

EVERYTHING POINTS TO A COM-
PLETE SUCCESS.

The Booths Filled With Attractive Dis-
plays.—Best Exhibition of Farm Prod-
Ever Seen in the County.

OPEN AIR ENTERTAINMENTS.

ATTRACTED A GREAT CROWD LAST
NIGHT.

The Opening Day Highly Satisfactory to
Management.—Success As-
sured.

The remarkable opening of the street
fair has been a surprise to every one.
The displays of grains, fruits, vegetables,
fancy needle work and work of art are
the best ever seen in this part of the
state. All classes have responded
beautifully and as a result the booths
will scarcely hold the exhibits. The
management is smiling and the citizens
generally are smiling with them. They
were never prouder of their home city
than now.

The open air exhibitions and enter-
tainments last night were of high order
and won the applause of the large
crowds on the streets. At every stage
was an attractive and interesting en-
gagement, such as will take place
every day and evening during the week.

This was children's day. Prizes were
offered to the largest Sunday school
delegations. The first prize was award-
ed to Rockford school and the second
to Cortland, both of which had large
delegations.

An interesting feature of the after-
noon program was a drill of twenty-
four young ladies under the direction
of Frank R. Hale. They executed a
large number of movements in a man-
ner almost perfect.

There were performances at all the
stages and platforms this afternoon and
will be tonight. The people are being
entertained.

SOME OF THE EXHIBITS.

The display of corn at the Hub cloth-
ing store booth is simply wonderful. It
is regarded better than the corn exhibit
at the state fair this year. There are
156 separate entries of corn in competi-
tion for the prizes offered by Mr. John-
son.

Cole & Company offered a prize for
the tallest stalk of corn brought to
their booth. They have eighty-five
competitors for this prize. The tallest
stalk of corn measures near seventeen
feet. This firm has also a very fine
display of vegetables and grapes at
their booth.

The John C. Groub Co. offered 200
pounds of granulated sugar for the
largest pumpkin brought in. They
have sixty-nine entries, and the
largest pumpkin in the lot is a good
load for two men.

W. F. Peter has in his booth a splen-
did display of all kinds of grasses and
grass seeds.

The Thomas Clothing Co. has twenty-
seven different entries of beans
making a fine display.

The exhibits of fancy needle work at
Price Bros' booth is attracting much
attention. The work shown there is
exceptionally fine.

The elaborate booth of the Gold
Mine is filled with beautiful things.
The needle work and fancy articles
there are excellent and are attractively
and tastefully arranged.

On account of the crowds the lantern
drill by the young ladies will not be
given tonight but the latter part of the
week.

THE BICYCLE RACES.

The bicycle races will come off
tomorrow and Thursday. There are
a sufficient number of entries
to make every race interesting. There
will be riders here from all directions
to compete for the prizes. Races to
begin at 2:30 o'clock Wednesday and
Thursday afternoon.

PERSONALS.

Al Bozell is here from Columbus.
E. Heck is here from Shelbyville to-
day.
Joshua England was here from Kurtz
today.
Leonard Harvey is here from Way-
mansville.
William Ahlert is here from near
Surprise today.

A. Marks was here from Madison on
business Monday.
Engineer Lon Durham and wife are
here from Cincinnati.

being confined at home from the effects
of serious injuries received at Indian-
apolis ten days ago.

Mrs. John Drown and Mrs. C. S. Cadot,
of Portsmouth, Ohio, are being pleas-
antly entertained by Mrs. Frank Smith
and attending the street fair.

Ansel Gerrish, of English, who has
been sick for three months is better
and was able to come home today. He
expects to soon be entirely restored to
health.

DIED.

The three months old child of Nich-
olas Heagle died Sunday Sept. 26, 1897.

The two months old son of Mr. Hein-
baugh, north of Reddington, died Sun-
day Sept. 26, 1897.

BORN.

A daughter was born to John Cooley
and wife Wednesday Sept. 27, 1897.

A daughter was born to John Wiggins
and wife, of Grassy Fork, Sunday Sept.
26, 1897.

A son was born to George W. Stead-
man and wife, of Oldtown, Sunday Sept.
26, 1897.

A daughter was born to George Wil-
son and wife, near Sauers, Monday
Sept. 27, 1897.

RAILROAD RUMBLINGS.

Trainmaster Bennette was here
today.
Switch engine, No. 17 is appropriately
decorated with flags and bunting.
Enos Humphrey, traveling engineer of
B. & O. S. W. was here last night.

A few days ago No. 1, drawn by
engine 143 made the run from a dead
stop at the North Vernon platform to
the depot platform at Seymour in 18
minutes which is regarded as a remark-
ably fast run.

If you have never
tried Cleveland's baking
powder you do not know
what the best cake tastes
like.

You may be a good
cook, but without Cleve-
land's baking powder
you are at a disadvan-
tage.

Guarantee.

When bilious or costive, eat a Casca-
ret, candy cathartic, cure guaranteed
10c and 25c.

WANTED.—Girl to do general house
work. Steady employment. Inquire
at Hub Clothing Store.

The Farmer's Little Joke.
A republican farmer on his way to
town with a load of wheat saw a popu-
list farmer coming along the road. The
republican began to cry awfully.

"What's the matter?" asked the popu-
list. "I'm taking my wheat to town,"
said the republican. "Boo, hoo." The
populist looked at him and said: "But
what are you crying for? You'll get a
dollar a bushel for it." The republican
cried afresh and said: "But the gold
standard is still in existence, and there
—." But the populist farmer whacked
his horse and drove on lickety-split.
"The darn republican," he said. "He
was going to tell me there wouldn't be
enough money to handle the wheat."
—Wichita Eagle.

Seymour REPUBLICAN.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the *Chicago Enquirer*; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the *Daily Enquirer* have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The *Weekly Enquirer* at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The *Enquirer* has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to with a cheaper journal cannot afford.

The very liberal support given the *Enquirer* by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

MAPLE SUGAR.

Widespread Ignorance on the Part of Consumers.

Speaking of maple sugar brings to mind the fact that there is no product of the farm concerning which there is greater ignorance on the part of consumers than maple sugar and sirup. It seems to be almost the universal opinion that maple sirup to be genuine must be dark in color and of a thick, heavy body. I have carefully studied this matter, and I am convinced that dealers in large towns and cities are largely responsible for this. Maple sirup is one of the easiest things to "doctor." For instance, a gallon of strictly pure, light colored maple sirup is received, and foreign substances, as cane sugar or glucose, are added and three gallons made, and all are branded "pure maple sirup."

Some years ago I stepped into a grocery store in the city of Denver and inquired if they had any genuine maple sirup. "Oh, yes," and I was shown cans branded "pure Vermont maple sirup." I asked the grocer if he would kindly let me taste a sample. He did so, and as I looked up I suspect he began to "smell mice" and asked if I was a manufacturer of the article. I said, "Yes, and I ship it every spring to your city." Seeing he was fairly caught, he said: "The fact is I cannot fool you, I see. This sirup of ours was probably made in Chicago."

Last spring I sent a gallon by request to a pastor of a church in Brooklyn who in his boyhood days used to live on a farm in Chenango county and knew what real maple sirup was. We sent him a gallon of early make, of a light amber shade, and at once received word that the sirup was entirely ahead of any he had ever seen, and that it was an utter impossibility to procure such in the city.

Why is it impossible? I know fine sirup is made and shipped. The fact is, as I said before, the consumer is not allowed to taste that fine, light colored, genuinely pure article, for once he gets a taste of it the trade for the bogus article is gone. A few days ago a friend told me he sent a pound of fine sugar, made by one of our farmers, to his mother in Baltimore. The cake weighed 18 ounces, and as it went by mail it cost him 18 cents postage. The letter carrier who delivered it said it must be something valuable to pay so much postage. The lady said she could guess what it was. It was a cake of maple sugar her boy had sent her from New York.

As the carrier lived close by the lady told him to come in during the evening and she would show him something good. He did so, but the moment he saw it he said: "You can't fool me. That isn't maple sugar. Maple sugar is always black." She chopped off a corner and told him to sample it. He declared he had never seen maple sugar before and wanted the lady to write and order him 100 pounds. The sugar was shipped, cash received, and one man learned that maple sugar, in order to be genuine, need not be black as a stovepipe. —Country Gentleman.

CORTLAND.

Everybody is getting ready for the great fair at Seymour.

Aunt Hannah Wilkerson was taken suddenly worse last Friday, but is better now.

The first institute of the season came off last Saturday with Prof. Richard in the chair.

The people along the E. & R. road will be pleased to know that the trains will be running soon. That they will be is a sure thing.

Mrs. John Uphouse and her daughter, Florence, returned home last Friday from New Albany where they have been visiting friends.

We will give the particulars of the wedding of Mr. Thomas Sanders and Miss Myrtle Roberts, which took place off next Wednesday.

Our trustee, E. R. White informs us that there is not one of his teachers that use tobacco in any form, nor swears nor drinks. How is that for good example.

Joseph Mohr and family, of Seymour, and Mrs. Leonard Harden were visiting in the family of Preston VanCleave last Sunday. In the evening they attended class and altogether the day was well spent.

E. O. McCormick, passenger traffic manager of the Big Four, is much gratified over the number of passengers their trains are carrying on all divisions, the improvement being most marked between Cleveland and St. Louis in both directions, and Cincinnati and Chicago.

The Michigan division is also showing a marked improvement in its local travel, this being the strong point with that division, such towns as Wabash, Anderson, Marion, Warsaw, Elkhart and Niles yielding a 50 per cent. better revenue than at the corresponding period last year.

Sick stomach means sick man (or woman).

Why not be well?

Sick stomach comes from poor food, poor nourishment, means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and soon makes you well and strong again.

The more you take the less you will feel of your stomach.

At druggists. Trial bottle 10 cents.

A great deal has appeared in the newspapers at different times about aluminium, its properties and its uses.

It was recently announced that contracts had been signed for the delivery in England of 1,000 tons of the crude metal of American manufacture. General interest in the subject has led the American Monthly Review of Reviews to publish the first complete account of the discovery of the American process for the reduction of aluminium of electrolysis. The story of this discovery (which resulted in bringing down the price of the metal from \$16 to 35 cents a pound) and subsequent application in manufacturing on a commercial scale is one of the most interesting chapters in the recent annals of American industrial progress. It is another instance of the triumph of Yankee ingenuity and energy. America now makes as much aluminium in a year as all the countries of Europe together.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures instantly, swollen, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-fitting or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it today. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package free. Address Allen S. Olmsted, Le Roy, N. Y.

It is not a remedy put up by any Tom Dick or Harry; it is compounded by expert pharmacists. Ely Bros. offer a 10 cent trial size. Ask your druggist. Full size Cream Balm 50 cents. We mail it.

ELY BROS., 56 Warren St. N. Y. City.

Since 1861 I have been a great sufferer from catarrh. I tried Ely's Cream Balm and to all appearances am cured. Terrible headaches from which I had long suffered are gone.—W. J. Hitchcock, late Major U. S. Vol. and A. A. Gen., Buffalo, N. Y.

RAILROAD RUMBLINGS.

Thieves broke into the B. & O. S. W. depot at Charlestown last night for the second time within a few weeks. An entrance was effected by prying open a window to the waiting room. Another window was then broken and the ticket office entered. The money drawer was opened with a jimmy and a small amount of change was taken.—Jeffersonville News.

The Baltimore & Ohio Northwestern is expending money liberally on its roadbed, laying several thousand tons of new steel, and distributing stone ballast on its line at the rate of sixty to seventy cars a day.

GRAPES AND THE APPENDIX.

The Little Seeds Are Not So Dangerous as Has Been Claimed.

Things have been said about the baneful and delicious juice of the grape ever since the old time when Noah found out about it and came thereby to grief, but even before that men ate grapes, and only within the last decade have they been talked to about that. It is only since surgeons began to make money hunting for grape seeds in the vermiform appendix that people have been afraid to eat grapes and to eat them straight.

It now appears that in all the thousands of cases famous, and possibly in some cases infamous, in which this new fashioned surgical operation has been performed there is not one case in which a grape seed or any other little bullet shaped thing has been found in the vermiform appendix. The whole interior of the appendix is only big enough to admit a medium sized dining needle. Nobody knows what it is there for, but it must have been useful at some time. It is a case of the survival of the unfit, like the wisdom teeth, which are of so little use to most people, and the tonsils, which cause so much trouble now and then.

The tonsils and the appendix are both unused parts of the body and peculiarly liable to disease because they are not strengthened by use. If inflammation attacks them, they are unable to resist. Thus many diseases which have been ascribed to peritonitis or colic or a mysterious providence of some kind have been due to the diseased condition of this little useless organ of the human system, and if the trouble had been discovered in time the appendix could have been removed, and all would have been well.

The remedy, therefore, is not in avoiding grape seeds, which do not cause the trouble, but in keeping as well and as strong as possible, and in case of sudden illness calling a reliable doctor, who will know what the matter is. Somebody once said that most people use a doctor to enable them to sin against the laws of nature with impunity. But that is a bad use for him.—Washington Times.

Women Read Advertisements.

It is claimed, says the Philadelphia Press, that the women are the only readers of advertisements. In a measure this is true, and necessarily so, for women are the larger purchasers for the household and spend most of the money that is earned by business, professional and working men.

Even in the larger transactions it will probably surprise dealers to learn how influential a voice women have. The purchase of a home is almost invariably determined by the women of the household, and in nine cases out of ten their information as to the situation and desirability of a purchase is gained from the newspapers.

And every furniture dealer, dry goods dealer, groceryman and keeper of any sort of a store knows that he must appeal to the women if he wishes to sell his goods. One of the largest elements in the success of one of the greatest merchants in the world today is the fact that he knows how to appeal attractively through the advertisement to the woman.—Fourth Estate.

S. W. ROBERTSON.

OF Fairland, Ind., Recommends Wright's Celery Capsules.

FAIRLAND, Ind., Oct. 30, 1896.

WRIGHT MEDICAL CO., Columbus, Ohio.

Dear Sirs—I have used Wright's Celery Capsules for Constipation, Indigestion, Liver Trouble and Sleeplessness and have been very much benefited. I would not think of doing without them.

Yours truly,

S. W. ROBERTSON.

It is a sure cure for all kinds of neuralgia, headache, toothache, rheumatism, etc. It is a powerful sedative and anodyne, and is sold in small packages for one cent a dose.

DISGUISED AS MEN.

WOMEN WHO HAVE LIVED FOR YEARS IN MALE ATTIRE.

The Manchester Bricklayer Who Mistrustrusted His "Wife"—A Mysterious Case of Modern Times—Names Withheld by the Relator—A Prominent Professional Man?

In the month of April, 1888, Mr. Thomas, an attorney of Manchester, was seated alone in his office, when a client was shown in. She came, she said, to obtain a divorce from her husband, who was a master bricklayer, doing an excellent business. She complained that he drank heavily and when under the influence of liquor would beat her severely. This ill treatment she bore patiently until he finally refused to give her money for keeping expenses, whereupon she sought a separation.

When more closely questioned, the woman unfolded to the ears of the astonished lawyer the following remarkable story:

The master bricklayer had at birth been relegated to the feminine portion of humanity, but being early disgusted with the restricted life of girlhood he donned masculine attire and apprenticed himself to a bricklayer. (The personal pronouns are apt to get a little mixed in such descriptions, so I will adhere to the masculine.) He showed an unusual knack in his chosen trade and soon became his own master. He was a handsome young fellow, and many maidens fell in love with the dashing young mechanic, and he finally chose and married the woman who became Mr. Thomas' client.

Upon investigation this astonishing story was found to be strictly true. The bricklayer had acted as special constable for Manchester and had occupied other essentially masculine positions in the community, always being on hand when riots or any other danger threatened. The true sex of this esteemed citizen had never been suspected during the 25 years he had worn the disguise until domestic differences caused his partner to reveal the secret.

There is a well authenticated instance on record of a girl who adopted masculine apparel when she was 8 years of age, or rather, to be more accurate, her father dressed her as a boy that she might the better dance at public houses. She continued in this disguise for 40 years without being discovered.

To come down to modern times, the writer, though unable to mention names and localities, as one of the parties concerned is still living, knows of a striking example pertinent to the subject.

But five short years have been told since the final scene in this drama of real life was enacted. But to begin at the beginning:

There were two sisters, educated and refined ladies, left orphaned and well penniless. Both of them were beauties, one tall, dark and courageous, the other blond, small and gentle. The elder girl made up her mind to adopt a bold course. She took the little money they possessed and rented and stocked a little store in a distant city, where they were unknown; then, taking her sister, she stole quietly away.

In their new home they represented themselves as man and wife, did well in business and were universally respected.

Years passed. The gentleman (?) saved money, took up a pursuit more congenial to his tastes and became one of the most prominent men (?) in the city. The couple taught a beautiful home on Blank avenue, entertained and were entertained by the best society in the place. Everybody said: "What a handsome couple, she so delicately beautiful with her golden hair, he so stately and dark."

One afternoon, when the lady was "at home" to her friends and was surrounded by a laughing, chattering group, she, approaching across the room, with her eyes fixed upon her face, one of the best known physicians of the city. The man's face was so grave that it startled her, and her heart began to beat heavily with a foreboding of evil to come.

The doctor came up hastily, and without the usual formal greeting spoke to her in a low, excited voice:

"Mr. — fell dead of heart disease in his office about an hour ago. Only one of the clerks attended him, when I was called in. If you wish to preserve the secret, you had better come at once."

The doctor was not one who believed in breaking bad news gradually, but it were better he had adopted less abrupt measures in that instance, for the poor little lady was entirely overcome, and shrieking out, "What shall I do?" she fell at his feet in a faint.

Well, the story was hushed up and came to the ears of only a few people, but it is a true story just the same.

Such instances abound. There is today in one of the great cities of these United States a prominent professional man who is a disguised woman. He is a well to do bachelor and is considered a very desirable partner by matchmaking mamma and marriageable daughters.

To attempt to enumerate the cases of women who have temporarily assumed masculine disguise would be a hopeless task. Even such instances as are on record, doubtless representing a very small percentage of the real occurrences in this unnatural feminine attitude toward life, arising from many causes, is a matter of psychological interest.

We hear a great deal lately about the "abnormal woman," but the term "abnormal" is relative and should be applied with much discretion, or it will become meaningless.

It would perhaps be hardly accurate to use the word to describe even the class of women represented in this paper, but they may be truly said to have led most abnormal lives and may in consequence be of much interest to the student of the "weaker sex."

Just try a 10c box of Cascarets, the best liver and bowel regulator ever made.

How Massachusetts Treats Debtors.

Some recent letter writers in various newspapers have been complaining that Boston is provincial in several respects. So it is. But the charge may be extended to the state just as well. It is said to be possible to imprison a man for debt in Massachusetts, barbarous as it is looked upon in other regions, and it is said to be possible, too, for a creditor to intercept the salary of a man with a family, except \$10 a week, and this too, even if there are a dozen in the family, and the judgment debt is really another person's. When one learns of such things as these, one ceases to wonder at the extent of the emigration from regions where such things are possible.—Boston Traveller.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble, or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the *REPUBLICAN* and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

CASTORIA.

Everybody Says So.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and positively on the liver and bowels, cleanses the entire system, dispels colds, cures flatulence, fever, habitual constipation and biliousness. Mis Part in the Affair.

A very dejected looking man stood in the dignified presence of the police judge.

"You are charged with being drunk and disorderly," said the judge with great solemnity. "Are you guilty or not guilty?"

"I don't know, your honor," responded the submissive prisoner. "I suppose I am."

"Am?" queried the judge a little less solemnly.

The prisoner rubbed his eyes as if to see more clearly.

"No, your honor," he said. "Not am, but was."

"Was what?"

"Was drunk, I suppose, your honor."

"You've never been here before, have you?"

"No, your honor."

"Have you any explanation to offer for your unseemly conduct?"

"Not that I can recall at this moment, your honor," and the prisoner rubbed his head as if to start the circulation of his memory once more.

"I am informed," suggested the judge in a kindly tone, for he had a weakness that way himself, "that you were fishing."

This suggestion appeared to be what the prisoner needed.

"That's my honor," said he with a brightening face, "but I wasn't fishing."

"No?" and the erstwhile kindness of the judge's manner grew cold.

"No, your honor, I was cutting bait. The Lord only knows the condition of the man who did the fishing. I left him speechless under a tree two hours before I met the policeman."

The case was continued until a searching party returned.—New York Sun.

How Massachusetts Treats Debtors.

CHEAP TRIP

To Mammoth Cave and Tennessee Centennial.

Personally conducted excursion via Pennsylvania Lines. The Ideal Autumn Outing.

A special party of teachers and friends will visit the famous Mammoth Cave and the Tennessee Centennial at Nashville early in October in charge of Prof. C. F. Patterson, superintendent of public schools at Edinburg. The trip will be made over the Pennsylvania line Friday evening, October 1st. The train will leave Seymour, Ind., at 4:51 p. m., that date.

Special arrangements have been made for the reception of the party at Mammoth Cave, which will be reached the same evening. Explorations of this wonderful work of nature will be concluded Saturday morning, when the party will proceed direct to Nashville, reaching the Centennial Exposition early Saturday afternoon, enabling excursionists to spend Saturday afternoon and evening viewing the sights at the exposition. Advance arrangements have been made for their entertainment at Mammoth Cave as well as at asville at reduced rates. The entire trip, fare and entertainment, need not cost to exceed \$12.

The return journey may be made so that teachers need not miss being on hand at their school, as they may get back in ample time to resume school duties Monday morning. A cordial invitation is extended the public to take advantage of the low rates and special arrangements. The excursion will not be restricted to special parties or individuals. You are invited and will be welcomed to enjoy it. If you drop a line to Supl. Chas. F. Patterson, Edinburg, Ind., he will cheerfully answer inquiries, or details may be ascertained by addressing W. W. Richardson, district passenger agent, Pennsylvania Lines, Indianapolis, Ind.

Last Month of the Tennessee Centennial and Industrial Exposition.

The month of October closes this greatest of all exhibitions ever held in the South, and next to the Columbian, the best ever held in this country. For the closing month special attractions have been arranged and the rates from all parts of the country have been made lower than ever before known. The location (Nashville, Tenn.) is on the main line of the Louisville & Nashville railroad, directly on its through route between the north and south, and the trip in either direction via that city can be made as cheaply, if not cheaper, than via any other route. Ask your ticket agent for rates, or write to C. P. Amore, General Passenger Agent Louisville, Ky., for rates and information.

To the Klondyke Gold Fields

The Burlington Route is the direct northwest line to Seattle or Tacoma, and the direct westward line to San Francisco, en-route to Alaska. From 80 to 200 miles, and several hours saved by the Burlington's splendid passenger train service to the northwest from St. Louis, Kansas City or St. Joseph. Pullman sleepers and Free Chair Cars on all through trains. Several extra steamers will sail before the season closes. Ask your ticket agent for detailed information or write the undersigned.

L. W. WAKELEY, General Passenger Agent St. Louis, Mo.

Wanted—An Idea

Who can think of some simple thing to patent? Protect your ideas; they may bring you wealth. Write JOHN WEDDERBURN & CO., Patent Attorneys, Washington, D. C., for their \$1.00 price book and list of two hundred inventions wanted.

Sick Headache.

Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dyspepsia. In time heart disease developed. I was treated by several doctors with no relief. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty-six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."

Mrs. CHAS. KNAPP,
W. German St., Little Falls, N. Y., Nov. 7 '35.
Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.
DR. MILES MEDICAL CO., Elkhart, Ind.

Insure your business and other property in the Ohio Farmers Insurance Co. It is a strong, reliable, safe company. Cash assets over \$1,000,000. C. A. DAY, Ag't. Pfaffentuber Block.

DAILY REPUBLICAN

WEATHER INDICATIONS.

CHICAGO, September 28.—For Indianapolis Monday night and Tuesday, fair and slightly warmer weather.

GARRIOTT.

Settled local conditions promise a continuance of fair and moderate weather for at least two days to come. No general or local rain in sight.

FORSYTHE.

Miss Lottie Rust has been assigned to the Newkirk school two and a half miles west of Cortland.

Daniel Helper Brown, who has been sick for ten days, is able to be out again but is still quite weak.

Wason Bostic, of Burney, Decatur county, and his two daughters are here to see the street fair. Mr. Bostic is visiting his school friend, C. A. Saltmarsh, and his daughters are the guests of Mr. Lucius Gilman.

Examine your tongue; is it coated? Have you bad breath, sick stomach with sour belchings? If so, take Dr. Bull's Pills as directed for dyspepsia and you will be cured. 10 and 25 cents.

Conference Appointment.

The appointments of the Indiana M. E. conference were announced last night. Rev. J. M. Baxter, to the entire satisfaction of his many friends, is returned to Seymour. Seymour circuit, Rev. J. L. Shroyer, Brownstown, Rev. E. L. Sanders. Rev. T. J. Tene goes to New Washington and J. J. Stewart, Birdseye. Rev. G. S. Henninger remains at Crothersville and Rev. J. P. Maupin takes charge at Freetown.

Wright's Celery Tea cures constipation. Also, acts as a laxative. 50c at druggists.

THE STREET FAIR.

EVERYTHING POINTS TO A COMPLETE SUCCESS.

The Booths Filled With Attractive Displays.—Best Exhibition of Farm Products Ever Seen in the County.

OPEN AIR ENTERTAINMENTS.

ATTRACTED A GREAT CROWD LAST NIGHT.

The Opening Day Highly Satisfactory to Management.—Success Assured.

The remarkable opening of the street fair has been a surprise to every one. The displays of grains, fruits, vegetables, fancy needle work and work of art are the best ever seen in this part of the state. All classes have responded beautifully and as a result the booths will scarcely hold the exhibits. The management is smiling and the citizens generally are smiling with them. They were never prouder of their home city than now.

The open air exhibitions and entertainments last night were of high order and won the applause of the large crowds on the streets. At every stage was an attractive and interesting engagement, such as will take place every day and evening during the week. This was children's day. Prizes were offered to the largest Sunday school delegations. The first prize was awarded to Rockford school and the second to Cortland, both of which had large delegations.

An interesting feature of the afternoon program was a drill of twenty-four young ladies under the direction of Frank R. Hale. They executed a large number of movements in a manner almost perfect.

There were performances at all the stages and platforms this afternoon and will be tonight. The people are being entertained.

SOME OF THE EXHIBITS.

The display of corn at the Hub clothing store booth is simply wonderful. It is regarded better than the corn exhibit at the state fair this year. There are 156 separate entries of corn in competition for the prizes offered by Mr. Johnson.

Cole & Company offered a prize for the tallest stalk of corn brought to their booth. They have eighty-five competitors for this prize. The tallest stalk of corn measures near seventeen feet. This firm has also a very fine display of vegetables and grapes at their booth.

The John C. Groub Co. offered 200 pounds of granulated sugar for the largest pumpkin brought in. They have sixty-nine entries, and the largest pumpkin in the lot is a good load for two men.

W. F. Peter has in his booth a splendid display of all kinds of grasses and grass seeds.

The Thomas Clothing Co has twenty-seven different entries of beans making a fine display.

The exhibits of fancy needle work at Price Bros' booth is attracting much attention. The work shown there is exceptionally fine.

The elaborate booth of the Gold Mine is filled with beautiful things. The needle work and fancy articles there are excellent and are attractively and tastefully arranged.

On account of the crowds the lantern drill by the young ladies will not be given tonight but the latter part of the week.

THE BICYCLE RACES.

The bicycle races will come off tomorrow and Thursday. There are a sufficient number of entries

to make every race interesting. There will be riders here from all directions to compete for the prizes. Races to begin at 2:30 o'clock Wednesday and Thursday afternoon.

PERSONALS.

Al Bozell is here from Columbus.
E. Heck is here from Shelbyville today.
Joshua England was here from Kurtz today.
Leonard Harvey is here from Waymansville.
William Ahlert is here from near Surprise today.
A. Marks was here from Madison on business Monday.
Engineer Lon Durham and wife are here from Cincinnati.
Grandfather Graffe, of Waymansville, is dangerously sick.
Mrs. J. F. Baird is the guest of relatives and friends here.

Joseph Lutes, of Houston, is a business visitor here today.
Trustee D. H. Waters, of Vernon township, is here today.
Auditor Durment came up from Brownstown this morning.
Will Brown, Hotel Jonas clerk, was at North Vernon yesterday.

George Ellis, Charley Wert and Levi Hege are here from Columbus.
Trustee C. J. Reynolds, of Driftwood, went through to Indianapolis today.

Sold by druggists, 75c.
Hall's Family Pills are the best.

When bilious or constive, eat a Cascaret, candy cathartic, cure guaranteed 10c and 25c.

WANTED.—Girl to do general house work. Steady employment. Inquire at Hub Clothing Store.

The Farmer's Little Joke.
A republican farmer on his way to town with a load of wheat saw a populist farmer coming along the road. The republican began to cry awfully.

"What's the matter?" asked the populist. "I'm taking my wheat to town," said the republican. "Boo, hoo." The populist looked at him and said: "But what are you crying for? You'll get a dollar a bushel for it." The republican cried afresh and said: "But the gold standard is still in existence, and there —" But the populist farmer whacked his horse and drove on lickety-split. "The darn republican," he said. "He was going to tell me there wouldn't be enough money to handle the wheat."

Seymour REPUBLICAN.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the *Chicago Enquirer*; and a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the *Daily Enquirer* have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The *Weekly Enquirer* at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: "The *Enquirer* has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford."

The very liberal support given the *Enquirer* by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

MAPLE SUGAR.

Widespread Ignorance on the Part of Consumers.

Speaking of maple sugar brings to mind the fact that there is no product of the farm concerning which there is greater ignorance on the part of consumers than maple sugar and syrup. It seems to be almost the universal opinion that maple syrup is to be genuine must be dark in color and of a thick, heavy body. I have carefully studied this matter, and I am convinced that dealers in large towns and cities are largely responsible for this. Maple syrup is one of the easiest things to "doctor." For instance, a gallon of strictly pure, light colored maple syrup is received, and foreign substances, as cane sugar or glucose, are added and three gallons made, and all are branded "pure maple syrup."

Some years ago I stepped into a grocery store in the city of Denver and inquired if they had any genuine maple syrup. "Oh, yes," and I was shown cans branded "pure Vermont maple syrup." I asked the grocer if he would kindly let me taste a sample. He did so, and as I looked up I suspect he began to "smell mice" and asked if I was a manufacturer of the article. I said, "Yes, and I ship it every spring to your city." Seeing he was fairly caught, he said: "The fact is I cannot fool you, I see. This syrup of ours was probably made in Chicago."

Last spring I sent a gallon by request to a pastor of a church in Brooklyn who in his boyhood days used to live on a farm in Chenango county and knew what real maple syrup was. We sent him a gallon of early make, of a light amber shade, and at once received word that the syrup was entirely ahead of any he had ever seen, and that it was an utter impossibility to procure such in the city.

Why is it impossible? I know fine sirup is made and shipped. The fact is, as I said before, the consumer is not allowed to taste that fine, light colored, genuinely pure article, for once he gets a taste of it the trade for the bogus article is gone. A few days ago a friend told me he sent a pound of fine sugar, made by one of our farmers, to his mother in Baltimore. The cake weighed 18 ounces, and as it went by mail it cost him 18 cents postage. The letter carrier who delivered it said it must be something valuable to pay so much postage. The lady said she could guess what it was. It was a cake of maple sugar her boy had sent her from New York.

As the carrier lived close by the lady told him to come in during the evening and she would show him something good. He did so, but the moment he saw it he said: "You can't fool me. That isn't maple sugar. Maple sugar is always black." She chopped off a corner and told him to sample it. He declared he had never seen maple sugar before and wanted the lady to wrap and order him 100 pounds. The sugar was shipped, cash received, and one man learned that maple sugar, in order to be genuine, need not be black as a stovepipe. —Country Gentleman.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-fitting or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it today. Sold by all druggists and shoe stores. It is not a remedy put up by any Tom Dick or Harry; it is compounded by expert pharmacists. Ely Bros. offer a 10 cent trial size. Ask your druggist. Full size Cream Balm 50 cents. We mail it.

ELY BROS., 55 Warren St. N. Y. City.

Since 1861 I have been a great sufferer from catarrh. I tried Ely's Cream Balm and to all appearances am cured. Terrible headaches from which I had long suffered are gone. —W. J. Hitchcock, late Major U. S. Vol. and A. A. Gen., Buffalo, N. Y.

WOMEN READ ADVERTISEMENTS.

It is claimed, says the Philadelphia Press, that the women are the only readers of advertisements. In a measure this is true, and necessarily so, for women are the larger purchasers for the household and spend most of the money that is earned by business, professional and working men.

Even in the larger transactions it will probably surprise dealers to learn how influential a voice women have. The purchase of a home is almost invariably determined by the women of the household, and in nine cases out of ten their information as to the situation and desirability of a purchase is gained from the newspapers.

And every furniture dealer, dry goods dealer, groceryman and keeper of any sort of a store knows that he must appeal to the women if he wishes to sell his goods. One of the largest elements in the success of one of the greatest merchandisers in the world today is the fact that he knows how to appeal attractively through the advertisement to the woman. —Fourth Estate.

Hours to visit friends, see the sights and have the rest in the Capital city.

NEURALGIA cured by Dr. Miles' PAIN EXPELLER. "One coat a dose." As all druggists.

DISGUISED AS MEN.

WOMEN WHO HAVE LIVED FOR YEARS IN MALE ATTIRE.

The Manchester Bricklayer Who Mistrustrusted His "Wife"—A Mysterious Case of Modern Times—Names Withheld by the Relator—A Prominent Professional Man?

In the month of April, 1898, Mr. Thomas, an attorney of Manchester, was seated alone in his office, when a client was shown in. She came, she said, to obtain a divorce from her husband, who was a master bricklayer, doing an excellent business. She complained that he drank heavily and when under the influence of liquor would beat her severely. This ill treatment she bore patiently until he finally refused to give her money for keeping expenses, whereupon she sought a separation.

When more closely questioned, the woman unfolded to the ears of the astonished lawyer the following remarkable story:

The master bricklayer had at birth been relegated to the feminine portion of humanity, but being early disgusted with the restricted life of girlhood he donned masculine attire and apprenticed himself to a bricklayer. (The personal pronouns are apt to get a little mixed in such descriptions, so I will adhere to the masculine.) He showed an unusual knack in his chosen trade and soon became his own master. He was a handsome young fellow, and many maidens fell in love with the dashing young mechanic, and he finally chose and married the woman who became Mr. Thomas's client.

Upon investigation this astonishing story was found to be strictly true. The bricklayer had acted as special constable for Manchester and had occupied other essentially masculine positions in the community, always being on hand when riots or any other danger threatened. The true sex of this esteemed citizen had never been suspected during the 25 years he had worn the disguise until domestic differences caused his partner to reveal the secret.

There is a well authenticated instance on record of a girl who adopted masculine apparel when she was 3 years of age, or rather, to be more accurate, her father dressed her as a boy that she might the better dance at public houses. She continued in this disguise for 40 years without being discovered.

To come down to modern times, the writer, though unable to mention names and localities, as one of the parties concerned is still living, knows of a striking example pertinent to the subject.

But five short years have been told since the final scene in this drama of real life was enacted. But to begin at the beginning:

There were two sisters, educated and refined ladies, left orphaned and well high penniless. Both of them were beauties, one tall, dark and courageous, the other blond, small and gentle. The elder girl made up her mind to adopt a bold course. She took the little money they possessed and rented and stocked a little store in a distant city, where they were unknown; then, taking her sister, they stole quietly away.

In their new home they represented themselves as man and wife, did well in business and were universally respected.

Years passed. The gentleman (?) saved money, took up a pursuit more congenial to his taste and became one of the most prominent men (?) in the city. The couple bought a beautiful home on Blank avenue, entertained and were entertained by the best society in the place. Everybody said: "What a handsome couple, she so delicately beautiful with her golden hair, he so stately and dark."

One afternoon, when the lady was "at home" to her friends and was surrounded by a laughing, chattering group, she saw, approaching across the room, with his eyes fixed upon her face, one of the best known physicians of the city. The man's face was so grave that it startled her, and her heart began to beat heavily with a foreboding of evil to come.

The doctor came up hastily, and without the usual formal greeting spoke to her in a low, excited voice:

"Mr. ——— fell dead of heart disease in his office about an hour ago. Only one of the clerks attended him, when I was called in. If you wish to preserve the secret, you had better come at once."

The doctor was not one who believed in breaking bad news gradually, but it were better he had adopted less abrupt measures in that instance, for the poor little lady was entirely overcome, and shrieking out, "What shall I do?" she fell at his feet in a faint.

Well, the story was hushed up and came to the ears of only a few people, but it is a true story just the same.

Such instances abound. There is today in one of the great cities of these United States a prominent professional man who is a disguised woman. He is a well to do bachelor and is considered a very desirable party by matchmaking mamma and marriageable daughters.

To attempt to enumerate the cases of women who have temporarily assumed masculine disguise would be a hopeless task. Even such instances as are on record, doubtless representing a very small percentage of the real occurrences in this line, would fill volumes.

This unnatural feminine attitude toward life, arising from many causes, is a matter of psychological interest.

We hear a great deal lately about the "abnormal woman," but the term "abnormal" is relative and should be applied with much discretion, or it will become meaningless.

It would perhaps be hardly accurate to use the word to describe even the class of women represented in this paper, but they may be truly said to have led most abnormal lives and may in consequence be of much interest to the student of the "weaker sex."

Just try a 10c box of Cascarets, the best liver and bowel regulator ever made.

The Cascarets Co., New York, N. Y.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and a pamphlet, both sent free by mail. Mention the *REPUBLICAN* and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

CASTORIA.

The famous family remedy.

Vault cleaning. All work guaranteed. Call on George R. Harris, No. 11 Brown street. \$1.00 a load.

Everybody says so.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and positively on kidneys, liver and bowels, cleanses the entire system, dispels colds, cures headache, fever, habitual constipation and indigestion. Place your order with a box of C. C. C. today, 10c, 25c, 50c. Sold and guaranteed to cure by all druggists.

To the Klondyke Gold Fields

The Burlington Route is the direct northwest line to Seattle or Tacoma, and the direct westward line to San Francisco, en-route to Alaska. From 80 to 200 miles, and several hours saved by the Burlington's splendid passenger train service to the northwest from St. Louis, Kansas City or St. Joseph. Pullman sleepers and Free Chair Cars on all through trains. Several extra steamers will sail before the season closes. Ask your ticket agent for detailed information or write the undersigned.

Wanted—An Idea

Who can think of some simple thing to patent? Write JOHN WEDDERBURN & CO., Patent Attorneys, Washington, D. C., for their plan and list of two hundred inventions wanted.

CORLAND.

Everybody is getting ready for the next fair at Seymour.

Aunt Hannah Wilkerson was taken so ill on Friday last, but is better now.

The first institute of the season came off last Saturday with Prof. Richard in the chair.

The people along the E. & R. road will be pleased to know that the train will be running soon. That they will be is a sure thing.

Mrs. John Uphouse and her daughter, Florence, returned home last Friday from New Albany where they have been visiting friends.

We will give the particulars of the wedding of Mr. Thomas Sanders and Miss Myrtle Robertson, which is to come off next Wednesday.

Our trustee, E. R. White informs us that there is not one of his teachers that uses tobacco in any form, nor swears nor drinks. How is that for good example.

Joseph Mohr and family, of Seymour, and Mr. and Mrs. Leonard Harden were visiting in the family of Preston VanCleave last Sunday. In the evening they attended class and altogether the day was well spent.

GRAPE AND THE APPENDIX.

The Little Seeds Are Not So Dangerous as Has Been Claimed.

Things have been said about the baneful and delicious juice of the grape ever since the olden time when Noah found out about it and came thereby to grief, but even before that men ate grapes, and only within the last decade have they been talked to about that. It is only since surgeons began to make money hunting for grape seeds in the vermiform appendix that people have been afraid to eat grapes and to eat them straight.

It now appears that in all the thousands of cases famous, and possibly in some cases infamous, in which this new fashioned surgical operation has been performed there is not one case in which a grape seed or any other little bullet shaped thing has been found in the vermiform appendix. The whole interior of the appendix is only big enough to admit a medium sized dining needle. Nobody knows what it is there for, but it must have been useful at some time. It is a case of the survival of the unfit, like the wisdom teeth, which are of so little use to most people, and the tonsils, which cause so much trouble now and then.

The tonsils and the appendix are both unused parts of the body and peculiarly liable to disease because they are not strengthened by use. If inflammation attacks them, they are unable to resist. Thus many diseases which have been ascribed to peritonitis or colic or a mysterious providence of some kind have been due to the diseased condition of this little useless organ of the human system, and if the trouble had been discovered in time the appendix could have been removed, and all would have been well.

The remedy, therefore, is not in avoiding grape seeds, which do not cause the trouble, but in keeping as well and as strong as possible, and in case of sudden illness calling a reliable doctor, who will know what the matter is. Somebody once said that most people use a doctor to enable them to sin against the laws of nature with impunity. But that is a bad use for him.—Washington Times.

RAILROAD RUMBLINGS.

Thieves broke into the B. & O. S. W. depot at Charlestown last night for the second time within a few weeks. An entrance was effected by prying open a window in the waiting room. Another window was then broken and the ticket office entered. The money drawer was opened with a jimmy and a small amount of change was taken.—Jeffersonville News.

The Baltimore & Ohio's southwestern is expending money liberally on its roadbed, laying several thousand tons of new steel, and distributing stone ballast on its line at the rate of sixty to seventy cars a day.

DISGUISED AS MEN.

WOMEN WHO HAVE LIVED FOR YEARS IN MALE ATTIRE.

The Manchester Bricklayer Who Mistrustrusted His "Wife"—A Mysterious Case of Modern Times—Names Withheld by the Relator—A Prominent Professional Man?

In the month of April, 1898, Mr. Thomas, an attorney of Manchester, was seated alone in his office, when a client was shown in. She came, she said, to obtain a divorce from her husband, who was a master bricklayer, doing an excellent business. She complained that he drank heavily and when under the influence of liquor would beat her severely. This ill treatment she bore patiently until he finally refused to give her money for keeping expenses, whereupon she sought a separation.

CHEAP TRIP

To Mammoth Cave and Tennessee Centennial.

Personally conducted excursion via Pennsylvania Lines. The Ideal Autumn Outing.

A special party of teachers and friends will visit the famous Mammoth Cave and the Tennessee Centennial at Nashville early in October in charge of Prof. C. F. Patterson, superintendent of public schools at Edinburg. The trip will be made over the Pennsylvania line Friday evening, October 1st. The train will leave Seymour, Ind., at 4:51 p. m., that date.

Special arrangements have been made for the reception of the party at Mammoth Cave, which will be reached the same evening. Explorations of this wonderful work of nature will be concluded Saturday morning, when the party will proceed direct to Nashville, reaching the Centennial Exposition early Saturday afternoon, enabling excursionists to spend Saturday afternoon and evening viewing the sights at the exposition. Advance arrangements have been made for their entertainment at Mammoth Cave as well as at asville at reduced rates. The entire trip, fare and entertainment, need not cost to exceed \$12.

The return journey may be made so that teachers need not miss being on hand at their school, as they may get back in ample time to resume school duties Monday morning. A cordial invitation is extended the public to take advantage of the low rates and special arrangements. The excursion will not be restricted to special parties or individuals. You are invited and will be welcomed to enjoy it. If you drop a line to Supt. Chas. F. Patterson, Edinburg, Ind., he will cheerfully answer inquiries, or details may be ascertained by addressing W. W. Richards, U. S. district passenger agent, Pennsylvania lines, Indianapolis, Ind.

Last Month of the Tennessee Centennial and Industrial Exposition.

The month of October closes this greatest of all exhibitions ever held in the South, and next to the Columbian, the best ever held in this country. For the closing month special attractions have been arranged and the rates from all parts of the country have been made lower than ever before known. The location (Nashville, Tenn.) is on the main line of the Louisville & Nashville railroad, directly on its through car route between the north and south, and the trip in either direction via that city can be made as cheaply, if not cheaper, than via any other route. Ask your ticket agent for rates, or write to C. P. Amore, General Passenger Agent Louisville, Ky., for rates and information.

Wright's Celery Tea regulates the liver and kidneys, cures constipation and builds up the system.

How Massachusetts Treats Debtors.

Some recent letter writers in various newspapers have been complaining that Boston is provincial in several respects. So it is. But the charge may be extended to the state just as well. It is said to be possible to imprison a man for debt in Massachusetts, barbarous as it is in Massachusetts, too, for a creditor to said to be possible, too, for a creditor to intercept the salary of a man with a family, except \$10 a week, and this family, even if there are a dozen in the family, and the judgment debt is really another person's. When one learns of such things as these, one ceases to wonder at the extent of the emigration from regions where such things are possible. —Boston Traveller.
